### Changes to and Approval of Budget

Kindness Committee will be increased in the income and expected income. The carnations sales were a success and they donated money to the Co-Op.

5<sup>th</sup> Grade Spent more. The line items for Income and expected income will also increase.

A decision has been made to be conservative with the \$40,000 originally planned for campus enrichment from the fundraiser last year. This line item has been changed to \$27,000. This is in anticipation of possible changes this year with COVID.

There has been an increase for faculty and staff appreciation. PTA provided lunch during the week of students picking up their personal belongings.

Money has also been allocated for future celebrations.

Typically, we have a \$20,000 carry over into a new school year. This year we are carrying over \$50,000. This is to help with the possible unknown for the school year ahead. We are anticipating that the fundraiser will not only look different, but will not bring in the amount we typically see.
